\$330 Non Member

FABA 2021

Miami 2021

September 29 -
October 2, 2021

JW Marriott Turnberry
Miami, Florida

Types of Presentations

Workshops

WORKSHOPS are 3-hrs in length. Workshops will be held on Wednesday, September 29th. All workshops must be eligible for approval as a BCBA/BCaBA continuing education event. They should be designed to teach new skills that may be used by the participants. The format of the workshop **MUST** involve extensive audience participation, use of handouts, opportunities for participants to practice the skills, and/or the use of guided notes. Note that a workshop is not a sales or marketing event and any commercial advertising efforts are prohibited. Any extra fees must be justified.

Symposia

Symposia consist of several speakers addressing a very similar topic. A SYMPOSIUM is organized by the Chair of the session who is typically not a presenter of one of the papers. This differs from a paper session in that it features a Discussant—a person who is prominent in the field and is not one of the presenters. Questions from the audience are addressed at the end of the Symposium and commented upon by the Discussant.

Posters

Posters are visual presentations of primarily data-based information in an attractive, easily understood format. This year all Posters will be VIRTUAL. The presenters are asked to be present for the first hour to answer any questions or to more fully describe their work. Poster presentations offer a great opportunity to share their research, receive feedback on ideas, and network with others. Annual Ribbon Awards are bestowed. Posters are not eligible for continuing education credits.

Ignite

Ignite is a fast-paced, fun, thought provoking, session where presenters share their professional passions about some aspect of behavior analysis in five minutes, using 20 slides that auto-advance every 15 seconds. The Ignite motto is: "Enlighten us, but make it quick." IGNITE presentations will be grouped into 50-minute sessions based on similar themes. To learn more and see great examples of 5-minute presentations, visit <http://www.ignitetalks.io>

Papers

Papers are oral presentations of a single paper given in 50 or 80-minute durations. Papers may not be accepted at the same duration in which they were submitted (e.g., a 50 minute paper may be requested by peer reviewers to be expanded into an 80 minute presentation).

Paper Session

Twenty-five minute paper presentations will be grouped together to form 50 or 80 minute paper sessions around similar topics. a CHAIR will be assigned by the Program Committee reviewers to preside over the paper session (this is often one of the presenting authors). The chair will be assigned to introduce speakers, keep time, and act as a main communicator between the program committee and co-authors.

Panel Discussion

Panel Discussions bring together several individuals with similar expertise in a subject matter to discuss topics of concern or interest among themselves and with audience members. The organizer of a PANEL either acts as the Chair or selects a Chairperson responsible for introducing topics and speakers. The PANEL would be an appropriate submission for meetings of affiliated chapters or special interest groups. Panels are scheduled for 50 or 80 minutes in duration but may be accepted at a different duration upon peer review.

Meetings & Special Events

are items that need space at the conference, but do not fit into one of the other categories. should submitted by the intended Meeting Chair—for the purpose of discussing a common mission or topic of interest. This is intended for Special Interest Groups, Local Chapter, or other subcommittees of FABA. Other examples include yoga sessions, Zumba sessions or meet & greet events. Meetings & Events are not eligible for continuing education credits. If you feel that your event should receive CEUs, you are encouraged to submit a panel or paper presentation instead.
